Sir:

The Examiner, Ms. Susan Chen, and her Primary Examiner, Ms. Uyen Le, and the undersigned conducted a personal interview on November 18, 2004 in the above-captioned patent application. Attached please find a copy of the Interview Summary prepared by the Examiner at the end of the interview.

Prior to the interview, on November 15, 2004, an after-final Draft Amendment was faxed to the Examiner as a proposed response to a July 23, 2004 final Office Action, in preparation for the interview. This Draft Amendment was not filed with the U.S. Patent and Trademark Office.

During the interview, the features of independent claim 1 were discussed, as well as where in the specification the features and terms of claim 1 were disclosed. The Examiner maintained that she did not understand what the claimed invention was nor what many of the terms of claim 1 meant. The undersigned asserted that, contrary to the assertions of the Office Action, each of the features and terms of the claims were fully and clearly disclosed in the specification.

The Examiner recommended filing a Continuation-in-Part, with the new material

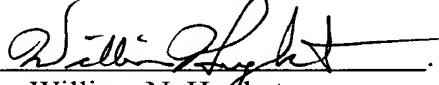

being definitions of the terms of claim 1, including: calculation variables, classification variables, variables in common, boundary tables, connecting tables, and starting table.

**Summary**

It is submitted that each of the features of the claims are fully and clearly disclosed in the specification and that the application is in full compliance with 35 USC § 112, first and second paragraphs. Thus, claims 1 - 15 are deemed to be in a condition suitable for allowance. Reconsideration of the claims and an early Notice of Allowance are earnestly solicited. If any fees are required in connection with this Amendment, please charge the same to our Deposit Account No. 02-4800.

Respectfully submitted,

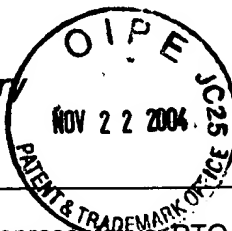

Burns, Doane, Swecker & Mathis, L.L.P.
